**TAG**

**TO BE SEEN**

**TRUCK**

**KEEP**

**HANGING**

**SAFETY SPRING - Keep stretched to 6 inches.  
Frequent cleaning and greasing "inside taper" is a MUST  
for safety and good performance.**

The Shoulder Washer is made of hard steel to protect the shoulder. The Murphy Fast Plug can be completely taken apart at any time. Just slip the shank out of the Body, then take the Body apart. If shoulder is burred, file or grind off the burr, then shank can be slipped out.
